

SEALED MODEL

FILTER -DRIER

SANHUA

FIRST LINE OF PROTECTION

Stops Contaminants, Moisture & Acid

World-class engineering and manufacturing technology combined with premium materials for superior performance.

System protector for optimum performance & efficiency

Effective & Efficient: Filters solid particles, adsorbs moisture and removes acid

Corrosion resistant paint

UL Listed

80% Molecular Sieve / 20% Active Alumina

Sanhua's Filter-Drier molded cores are engineered with a blend of desiccants to protect systems against moisture and acid. The core is secured in place with fiberglass pads on both ends and a 100 mesh metal support screen at the outlet. The pads and core together provide a large available filtering area to remove solid particle contamination to an extremely low level of 20 microns. Sanhua Filter-Driers are compatible with all common HCFC and HFC refrigerants and are UL Listed to a maximum operating pressure of 700 psig.

● *500 Hour Salt Spray Corrosion Resistance*

BACKED WITH CONFIDENCE - 18 MONTH WARRANTY
