

Hermetic Body Designed to Eliminate Leak Sources

World-class engineering and manufacturing technology combined with premium materials for superior performance.

Wide refrigerant temperature range

Low energy consumption coil

High maximum opening pressure differential (MOPD)

Coils are double sealed water tight and safe

Pilot Operated Performance

HDF series piston type solenoid valves are designed for use in air conditioning and refrigeration systems. In addition to liquid and suction line, they are suitable for discharge application and can tolerate temperatures to 285°F.

BACKED WITH CONFIDENCE - 18 MONTH WARRANTY
